

Canadian Skills Competition:

Recipients of the highest standing at the provincial competition are eligible to move on and represent their province at the annual competition.

Visit www.skillscanada.com for event dates and national competition information.

World Skills Competition:

Successful candidates from the national competition are selected to represent Canada at the World Skills Competition held biannually.

Visit www.ivto.com to learn more about the World Skills Competition.

How to Get Involved:

EDUCATORS:

- By encouraging students to pursue education and job opportunities in trade and technology.
- By encouraging students to participate in Skills Canada competitions.
- By joining a technical committee in the skill areas.

STUDENTS:

- By competing students are allowed to access the newest technologies.
- Communicate with industry experts who serve as mentors by showing students that the skills they possess are valuable.

PARENTS:

- By encouraging your child to consider the benefits of a skilled trade.
- Supporting your child in competing in the Skills Competitions.

BUSINESS AND LABOUR:

- By sponsoring skills competitions or activities through in-kind and monetary contributions.
- By partnering with the school system to develop industry-education partnerships that support skills development for students.
- By assisting in setting technical standards for skills competitions by joining technical committees.

Skills Canada Saskatchewan

Skills Work!

A project of the SLFDB with funding support provided by Human Resources Skills Development Canada and Saskatchewan Learning. Additional financial support and in-kind contribution from many private and public partners.

Who we are:

Skills Canada Saskatchewan's mission is "to promote skilled trades and technologies as a first choice career option for youth in Saskatchewan."

Skills Canada Saskatchewan goals are:

- To improve the public perception of the importance of trade and technology based careers
- To promote the career path opportunities within trades and technologies
- To develop and maintain strong links between business, labour, education, and government
- To encourage students to recognize the value of completing secondary education for personal development and future employability

What we do:

Skills Canada Saskatchewan hosts annual Olympic-style skills competitions that provide a forum for secondary, post-secondary and apprentice students to compete in over 25 trade and technology competition areas.

The philosophy of the skills competitions is:

- To reward students for excellence
- To directly involve industry in evaluating student performance
- To keep training relevant to employers' needs
