

Attention Competitors

**At the 2006 Provincial Skills Competition
Safety is # 1**

**Each Event Area Will Have Safety Equipment
and Requirements That Competitors Must
Adhere To**

Important Must Read!!!!

**Competitors Must Meet All Safety Requirements
To Compete At The Provincial Skills Competition**

**Please Consult The Scope Document To
Determine The Safety Requirements For Your
Area**

**It Is Recommended That Competitors Check The
Scope Document To Ensure You Meet All Safety
Requirements**

**Scope Documents May Be Updated Until January
13th**

2006 Provincial Skills Competition Scope Document

EVENT: ARCHITECTURAL CADD	LEVEL: SECONDARY
START TIME: 8:30AM MARCH 17 TH , 2006	LOCATION: SIAST KELSEY CAMPUS Room 252
INTERNATIONAL TRADE #: 52	DURATION: 6 HOURS

PURPOSE OF THE CHALLENGE:

To evaluate each competitor's knowledge and skill level in the field of Architectural Drafting and Design using CADD, and to give recognition to those students who excel in this chosen field.

SKILLS AND KNOWLEDGE TO BE TESTED:

The challenge will consist of practical Design/Drafting exercises that test your:

- Understanding and use of CADD to develop architectural designs and drawings, utilizing basic 2D commands.
- Understanding and ability to follow written instructions to produce drawings at a specified scale.
- Understanding of typical construction practices to be used in solving technical problems encountered.

Aspects to be tested:

- Competitors will be expected to setup a drawing file with assigned Units, Limits, Layers (color, line type and line weights) and Dimension Styles.
- Competitors will be required to create any combination of plot plans, floor plans, elevations, sections, and details.
- Competitors will be expected to use a scale to complete their drawings. The competitors may choose to use imperial or metric measurements.

EQUIPMENT, TOOLS, SUPPLIES:

Supplied by Committee

- Each competitor is restricted to a tabletop workspace.
- PC workstations.

Supplied by Competitor

- Scratch paper, pens, pencils, etc.
- Competitors may wear earplugs or a "walkman" to help isolate themselves from external noise and distractions.
- Imperial and/or Metric measuring scales.
- Personal calculator.
- The student may use a copy of Canadian Mortgage and Housing Corporation (CMHC) book "Canadian Wood-Frame House Construction" as a reference manual.

Software:

AutoCAD 2004 will be available on the Kelsey, SIAST Campus.

- Other CAD software may be used with the approval of the Technical Committee. If approved, the competitor is responsible for loading the software prior to the competition and deleting the software upon conclusion of the competition.
- Blocks for standard architectural symbols or symbols contained within the software program may be used.
- All software packages must be original registered versions.
- No add-on applications will be allowed.
- Use of software manuals and other reference materials will not be permitted during the competition.

JUDGING CRITERIA:

The students are to be evaluated on their use and practical knowledge of the following:

- Architectural Conventions 30%
- Construction practices and technical content 50%
- Creativity 20%

NOTE TO INSTRUCTORS:

- The Skills Canada National Technical Committee requires all competitors to have their own copy of Canadian Mortgage and Housing Corporation (CMHC) book "Canadian Wood-Frame House Construction" as a reference manual. This resource is built upon the National Building Code. The Provincial exam will require that the students have and use their copy during the practical exam. The exam will have sections/questions that this resource will help to answer. All drawings will have to follow the codes/building technology contained within this resource.
